

## PEER SUPERVISION GROUP

**ICAPP facilitates a monthly Peer Supervision group, for anyone who works with children and would like to think about their work from a Psychoanalytic perspective.**

An opportunity for Professional Development, this peer supervision group creates an opportunity for child therapists, teachers, nurses and other professionals working with children to discuss their work, and review and develop skills. It is a chance to gain professional support, learn from your peers, develop professional relationships and network with other professionals.
